## Ladder Safety Gate Selection Guide

Charts below are general guide for selecting the size of gates to order. First, you need to determine whether the hinge would be within or outside the opening. Hinge is typically placed away from the opening for round or square posts. For case of angle or flat bar posts, the hinge would be within the opening.

### Standard Installation-Railings up to 2" Square/Round

### Ladder safety gates for installation to round or square posts

Safety Gate Type	Min Opening Size (in)	Max Opening Size (in)	Approximate Weight (lbs)
Safety Gate LSG-15	13-3/4	17-1/2	24
Safety Gate LSG-18	16-3/4	20-1/2	24
Safety Gate LSG-21	19-3/4	23-1/2	24
Safety Gate LSG-24	22-3/4	26-1/2	25
Safety Gate LSG-27	25-3/4	29-1/2	25
Safety Gate LSG-30	28-3/4	32-1/2	25
Safety Gate LSG-33	31-3/4	35-1/2	26
Safety Gate LSG-36	34-3/4	38-1/2	26
Safety Gate LSG-40	38-3/4	42-1/2	27
Safety Gate LSG-44	42-3/4	46-1/2	27
Safety Gate LSG-48	46-3/4	50-1/2	28

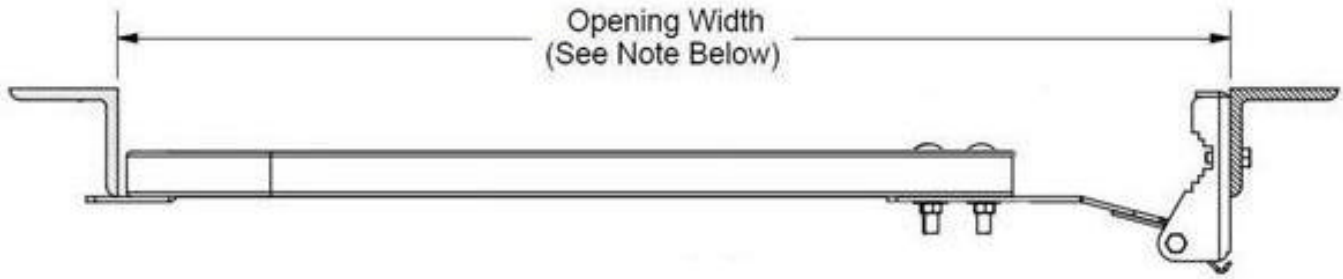

Adapter for attachment to large pipe (2" to 4" diameter) is available.

## Installing on Angle Iron/Flat Stock Railing - (Angle Iron Shown)

As per chart below, for inside face mount the required gate size would be 2-1/2" narrower than the outside face mount.

### Ladder safety gates for installation to angle or flat bar posts

Safety Gate Type	Min Opening Size (in)	Max Opening Size (in)	Approximate Weight (lbs)
Safety Gate LSG-15	16-1/4	20	24
Safety Gate LSG-18	19-1/4	23	24
Safety Gate LSG-21	21-1/4	26	24
Safety Gate LSG-24	24-1/4	29	25
Safety Gate LSG-27	27-1/4	32	25
Safety Gate LSG-30	30-1/4	35	25
Safety Gate LSG-33	34-1/4	38	26
Safety Gate LSG-36	37-1/4	41	26
Safety Gate LSG-40	41-1/4	45	27
Safety Gate LSG-44	45-1/4	49	27
Safety Gate LSG-48	49-1/4	53	28

Adapters for "no drill" option are available for angle or flat bar posts.
